

## Elan Direct Mute (EDM-xxx)

The Elan Direct Mute is a vehicle specific harness designed for vehicles that are telephone ready, this provides a cost effective mute solution without the need for a separate mute module.

- Easily interchangeable car-kit harnesses for future phone upgrading.
- Plug & play concept which carries on the Elan philosophy\*
- Detachable 'T' shaped harness for easier cable routing and installation where space is restricted.
- Manufactured with inline fuses and fuse holders for permanent & ignition switched power outputs to the car-kit.

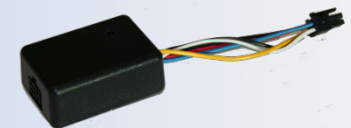

**Important note:** You will require a car-kit specific accessory harness (EAH-xxx) in order to complete the installation of the (EDM-xxx) Kit. The accessory harness must be selected to suit the Car-kit that is being installed.

*\*Some products do have external cables that may require some connectivity to vehicle and these cannot be made plug & play.*

### Kit Contents:
